Settlement of accounts summary for 1Q / March 2016 (1Q/2016)

Main points of 1Q/Mar 2016 financial results

Revenue strong, mainly in the Business Technologies Business.
Operating profit hit by unevenness in "Others" item due to shift to IFRS.

Revenue : ¥248.6bn (YoY +¥22.0bn/+10%)

- ✓ Rise in revenue driven by core Business Technologies Business. Rising sales in Healthcare Business also suggests recovery. Rising sales in both divisions as well as weakness of the yen against the US dollar compensated for lower sales in the Industrial Business division.

Operating profit : ¥10.0bn (YoY - ¥4.4bn/-30%)

- ✓ In addition to lower profits in Industrial Business, profits were reduced by ¥3.5 billion in special factors, consisting of ¥2 billion in structural reform expenses posted this fiscal year and by ¥1.5 billion gain on sale of assets posted in the previous fiscal year. The impact of the stronger yen against the euro depressed profits by ¥900 million.

Profit : ¥6.6bn (YoY - ¥2.8bn/-30%)

(attributable to owners of the company)

Revenue

¥8.3bn
 (YoY +16%)

- ✓ In the mainstay digital X-ray diagnostic imaging systems, sales of CR and ultrasound systems (in Japan) and cassette-type DR (overseas) increased.
- ✓ In Brazil the Group entered into an agreement to acquire an X-ray system equipment manufacturer. Use of this company's sales network will help accelerate the expansion in sales of digital products.

¥9.6bn
 (YoY +8%)

- ✓ Domestic sales of local procurements increased, leading to higher revenue year on year.

Industrial Business - Overview

Revenue : ¥28.2bn (YoY - 6%)

- Measuring instruments and lenses for industrial and professional use were on the whole strong. Revenue for the business as a whole fell due to the impact of falling sales of performance materials as a result of contracting demand in the notebook PC market.

Operating Profit : ¥5.9bn (YoY - 26%)

- In addition to a fall in gross profit caused by the decline in sales of performance materials, a ¥1.1 billion gain on sales of assets was posted to the accounts in Q1 of the previous fiscal year, resulting in a year-on-year decline in profit.

KONICA MINOLTA

1Q / Mar 2016 (1Q/FY2015) Topics

Structural Reform Expenses and Impact on 1Q Operating Profit

Implement measures to accelerate the qualitative shift of human resources that is the key to driving change and to enhancing customer value and operational competitiveness. Raise productivity and link through to increased earning power.

Structural reform measures	Target	Number of applicants	Total cost	Cost reduction effect
Special early retirement program	Managerial and general employees	182	¥2.0 billion (Extra retirement payments)	FY 2015: ¥1.5 billion FY 2016: ¥1.9 billion

As a result, 1Q operating profit is distorted by the one-off impact of unevenness in "Other income/expenses" relating to both this year and the previous year.

	FY2015/1Q		FY2014/1Q		Change YoY
Other income			¥1.5 billion	Gain on sale of property, plant and equipment	-¥1.5 billion
Other expenses	¥2.0 billion	Extra retirement payments			-¥2.0 billion
Factors negatively impacting operating profit in FY2015/1Q					-¥3.5 billion

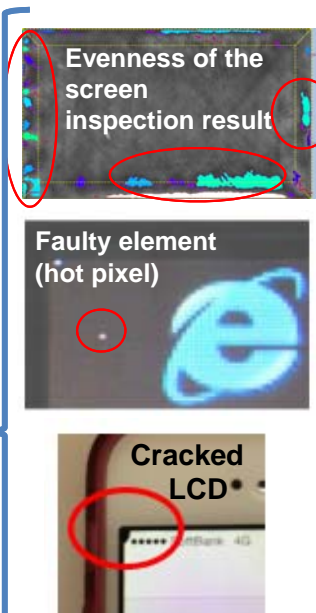

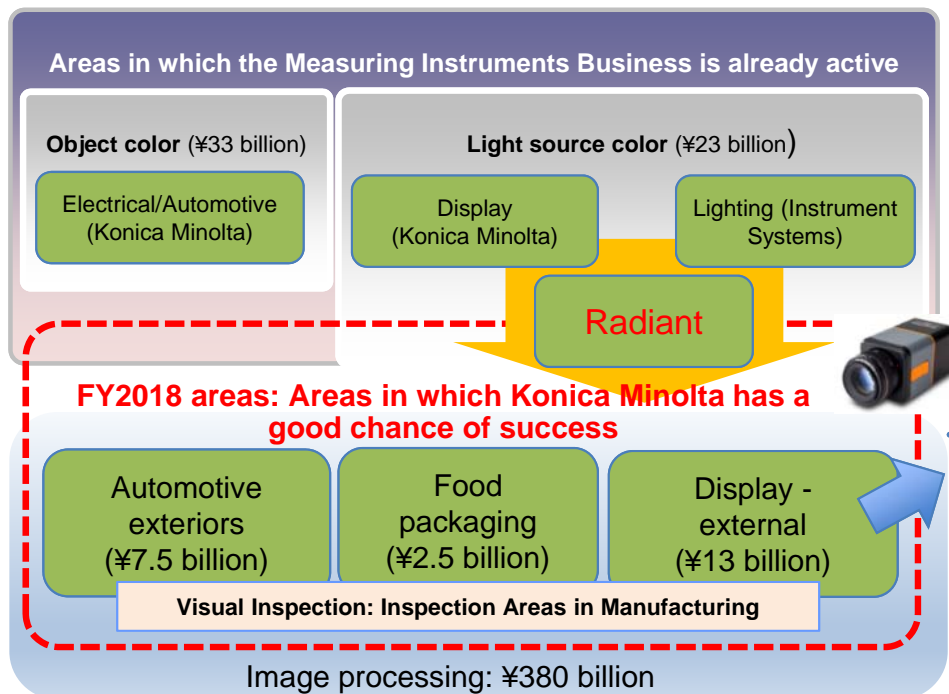

Radiant Vision Systems Acquisition

Leveraging the synergies from the Company, Instrument Systems GmbH and Radiant, the Group aims to strengthen its position as the clear number one player in the light source color measurement market and to develop the business into a highly profitable operation with ¥50 billion in revenue by FY 2018.

Who is Radiant?	A supplier of display measurement systems headquartered on the West Coast of the United States. Revenue of about ¥4.5 billion in 2014 with a share of roughly 20% in the light source measuring market
Radiant's strengths	<ul style="list-style-type: none"> (1) Proximity to major US IT corporate customers stemming from its ability to leverage the geographical advantage of its West Coast location (2) Full line-up of image processing software and abundant accumulated knowhow (3) US/China customer base and support structure
